

END OF 2020 STEWARDSHIP CAMPAIGN

Dear Christ First Friends:

This year's stewardship campaign, Growing in Faith Together, is drawing to a close. I hope you have enjoyed hearing the stories from fellow members about the importance of Christ First in their lives and how they contribute their time, talent and financial support to our church. Our members have many good stories to tell.

You now have the opportunity to help make 2021 a good year for Christ First and our community. Through your generosity, we will be able to support our important community partners and continue carrying out our vision of being spiritually engaged, community-focused and caring and connected.

Your contributions to both our local ministry and Mission and Service overseas will help change lives every day and are very much appreciated.

To help us build our 2021 budget, please indicate your intended financial support for 2021 by sending in your Estimate of Givings form to the confidential mailbox: office@christfirst.ca The form can be found on the Donate page on the church website.

The deadline for sending in your form is **November 20**. After that date, we will be making follow-up calls to those we haven't heard from. Please help us save time and resources by returning your form promptly.

All stewardship information is available on the **Donate** page of the website. Please check there for any information you may have missed, including this year's special music video. And don't forget to watch the weekly worship services online. Together, we will keep Christ First strong.

On behalf of the stewardship committee, thank you for your support for Christ First.

Mary Dowding-Paré

Chair, Stewardship Committee
